The minor in computer and information science consists of a minimum of 23 credit hours in one of two tracks: programming and algorithms, or information systems. See the course lists below. If you complete the minor following these guidelines, you should file the Minor Program Form with a college or school counselor. Any variation from the program described here needs the approval of the coordinating adviser in the Department of Computer Science and Engineering. CIS minors do not pay a computing fee, they do not get permanent computer accounts on the computer and information science machines, and do not get priority scheduling into the "M" (major) sections of computer and information science courses. For further information about the minor program, contact the department.
