Department: Speech and Hearing Science
Position: Chronic Brain Injury
Rank: Associate Professor to Professor

Description:
The Department of Speech and Hearing Science in the College of Arts and Sciences at The Ohio State University invites applications for a new tenure track position at the rank of associate or full professor, to commence autumn semester 2016. The successful candidate will have a research program in the nature, assessment and/or treatment of cognitive and communication disorders associated with brain injuries, as well as a history of working in collaborative multidisciplinary research groups. The successful candidate is expected to establish/maintain an externally funded research program and to train undergraduate and graduate students, and postdoctoral researchers. This individual will also contribute to service activities in the department, college, university and profession.

This position is partially funded by Ohio State's Discovery Themes Initiative, a significant faculty hiring investment in key thematic areas in which the university can build on its culture of academic collaboration to make a global impact. It is part of the Chronic Brain Injury Collaborative [https://discovery.osu.edu/focus-areas/brain-injury/] within the Health and Wellness Discovery Theme and the successful candidate will become part of the new Center for Prevention and Treatment of Chronic Brain Injury at Ohio State.

The Ohio State University Department of Speech and Hearing Science includes 14 fulltime faculty, 2 jointly appointed faculty, 2 research associates, 7 clinical staff/faculty, adjunct faculty and students. The department has four main academic programs: a BA in Speech and Hearing Science; a MA in Speech-Language Pathology; an AuD in Audiology; and the PhD.

Speech and Hearing Science faculty at Ohio State have access to the many centers, institutes, and core facilities on campus, including the College of Medicine, Wexner Medical Center, the Center for Cognitive and Behavioral Brain Imaging (CCBBI), the Center for Cognitive and Brain Sciences (CCBS), and units across Arts and Sciences. This environment has resulted in significant collaborations and grants. A broad array of shared resources is available nearby and across the campus to support basic, translational and clinical research. Disciplines in the Chronic Brain Injury Collaborative include neuroscience, engineering, psychology, rehabilitation science, and sports medicine.

Qualifications:
Applicants must have a PhD in speech and hearing science, communicative disorders, or a related field at the time of application. The successful applicant must have a significant record of scholarly productivity, a national/international reputation and evidence of a fundable research program. Appointment is contingent on the university's verification of credentials and other information required by law and/or university policies, including but not limited to a criminal background check.

About Columbus:
The Ohio State University campus is located in Columbus, the capital city of Ohio. Columbus is the center of a rapidly growing and diverse metropolitan area with a population of over 1.5 million. The area offers a wide range of affordable housing, many cultural and recreational opportunities, excellent schools, and a strong economy based on government as well as service, transportation and technology industries (see [http://liveworkplaycolumbus.com/]). Columbus has consistently been rated as one of the Top U.S. cities for quality of life, and was selected as one of the Top 10 cities for African Americans to live, work, and play by Black Enterprise magazine. Additional information about the Columbus area is available at [http://www.columbus.org].

Application Instructions:
Apply to Academic Jobs Online at: [http://academicjobsonline.org/ajo/jobs/6215]. Complete applications include a statement of research interests and plans, a current curriculum vita, the names of three recommenders, and three representative publications. Although the position will be appointed at the associate or full professor level, candidates who are advanced
assistant professors will be considered. Review of applications will begin immediately and will continue until the position is filled. Initial inquiries will be kept confidential. Inquiries may be directed to Professor Rebecca McCauley at mccauley.90@osu.edu.

The Ohio State University is committed to establishing a culturally and intellectually diverse environment, encouraging all members of our learning community to reach their full potential. We are responsive to dual-career families and strongly promote work-life balance to support our community members through a suite of institutionalized policies. We are an NSF Advance Institution and a member of the Ohio/Western Pennsylvania/West Virginia Higher Education Recruitment Consortium (HERC).

The Ohio State University is an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability status, or protected veteran status.
