The Department of Speech and Hearing Science in the College of Arts and Sciences at The Ohio State University invites applications for a new tenure track position at the rank of assistant, associate or full professor, to commence autumn semester 2016. The successful candidate will have expertise in areas related to speech and hearing science and/or speech-language pathology, with preference given to candidates with expertise in adult communication or swallowing disorders. Because research in speech and hearing science and speech-language pathology is inherently interdisciplinary, it is expected that the successful candidate will work on collaborative projects in related departments such as psychology, neuroscience, and others relevant to the candidate’s area of expertise. The successful candidate is expected to establish/maintain an externally funded research program and will teach courses in basic speech-language sciences as well as courses in more clinically applied areas associated with her/his area of expertise. This individual will also contribute to service activities in the department, college, university and profession.

The Ohio State University Department of Speech and Hearing Science includes 14 fulltime faculty, 2 jointly appointed faculty, 2 research associates, 7 clinical staff/faculty, adjunct faculty and students. The department has four main academic programs: a BA in Speech and Hearing Science; a MA in Speech-Language Pathology; an AuD in Audiology; and the PhD.

Qualifications:
Applicants must have a PhD in speech and hearing science, communicative disorders, or a related field by the start of employment. Postdoctoral training or equivalent experience will be preferred. The successful junior candidate will possess training under an internationally-recognized expert, an emerging publication record, and strong potential for extramural funding (e.g., National Institutes of Health, National Science Foundation). For consideration at the rank of tenured associate professor or professor, the successful applicant must have a significant record of scholarly productivity, a national/international reputation and evidence of a fundable research program. Appointment is contingent on the university’s verification of credentials and other information required by law and/or university policies, including but not limited to a criminal background check.

About Columbus:
The Ohio State University campus is located in Columbus, the capital city of Ohio. Columbus is the center of a rapidly growing and diverse metropolitan area with a population of over 1.5 million. The area offers a wide range of affordable housing, many cultural and recreational opportunities, excellent schools, and a strong economy based on government as well as service, transportation and technology industries (see http://liveworkplaycolumbus.com/). Columbus has consistently been rated as one of the Top U.S. cities for quality of life, and was selected as one of the Top 10 cities for African Americans to live, work, and play by Black Enterprise magazine. Additional information about the Columbus area is available at http://www.columbus.org.

Application Instructions:
Apply to Academic Jobs Online at: http://academicjobsonline.org/ajo/jobs/6214. Complete applications include a statement of research interests and plans, a current curriculum vita, the names of three recommenders, and three representative publications. Review of applications will begin immediately and will continue until the position is filled. Initial inquiries will be kept confidential. Inquiries may be directed to Professor Rebecca McCauley at mccauley.90@osu.edu.

The Ohio State University is committed to establishing a culturally and intellectually diverse environment, encouraging all members of our learning community to reach their full potential. We are responsive to dual-career families and strongly promote work-life balance to support our community members through a suite of institutionalized policies. We are an NSF Advance Institution and a member of the Ohio/Western Pennsylvania/West Virginia Higher Education Recruitment Consortium (HERC).
The Ohio State University is an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability status, or protected veteran status.
