General Education Requirements for the Professional Programs in the Arts

Semester Curriculum

Autumn Semester 2015

The following degree requirements apply if you began your career as a regularly enrolled college student at Ohio State summer term 2012 or later.

Note: if one or more full terms (excluding summer) have elapsed between any two successive terms of enrollment at Ohio State, you must fulfill the requirements for the degree in effect at the time of reenrollment.

The following degree requirements are effective autumn semester 2015. Check the website https://artsandsciences.osu.edu/current-students/academic-programs/general-education-requirements for updated information. Consult your advisor before making enrollment decisions.

Your Responsibility as a Student

You are responsible for knowing the published policies governing the curriculum you are pursuing, as well as the regulations and procedures of the college and the university. The Professional Programs in the Arts curriculum sheet should be used in conjunction with the degree planning information and college policies, published online, at https://artsandsciences.osu.edu/current-students/advising.

Arts Majors

Note: Bachelor of Arts majors in Art, History of Art, Music, and Theatre must use the Arts and Sciences Bachelor of Arts and Bachelor of Arts in Journalism curriculum sheet, not this Professional Programs in the Arts sheet.

The information contained in this Professional Programs in the Arts curriculum sheet pertains to students following one of the majors and degree programs listed below. Admission to these areas is selective. In addition, each Arts and Sciences division offers the interdisciplinary honors contract and the personalized study program majors.

Bachelor of Art Education (BAE)
Bachelor of Fine Arts (BFA)
Bachelor of Music (BM)
Bachelor of Music Education (BME)
Bachelor of Science in Design (BSD)

Art, BFA

Music Theory, BM
Visual Communication Design, BSD

Goal

Ohio State’s General Education (GE) is an integral part of an Arts and Sciences education. General education, as embodied in Arts and Sciences, provides the development of knowledge, perception, attitudes, and skills necessary to understand society’s traditions and past, its accomplishments and aspirations, its relation and responsibility to the natural world, its diversity and plurality, and its problems and needs. The goal is for you to attain a sense of self within society that invites a continuing desire and ability to learn and work with others for future realization of the human potential. Specific goals aimed toward the broader goal of the GE are listed below under the twelve categories of the curriculum.

The College of Arts and Sciences

The College of Arts and Sciences consists of 38 departments and schools offering majors in the arts and humanities, natural and mathematical sciences, and social and behavioral sciences.

Prerequisites

You are responsible for fulfilling all prerequisites to courses in which you enroll. Failure to satisfactorily complete prerequisites may delay graduation.

General College Requirements

- You must earn a minimum of 121 semester credit hours to earn an Arts and Sciences degree. In addition to the GE, you will complete general college and major requirements and elective course work to reach a minimum of 121 credit hours. Please note: some Professional Programs in the Arts require more than 121 minimum degree hours. See the table at the top of page 2 for details.

  Remedial courses (courses at the 10XX-level or below, and English 1109) and credit hours earned in repeated course work do not count toward the 121 hour minimum requirement for the Professional Programs in the Arts. Note that you can take both "versions" of cross-listed courses (e.g., Comparative Studies 2670/Philosophy 2860); however, since the two versions are in fact the same course, only one may count toward your minimum degree hours.

  The number of hours required to complete a Professional Program in the Arts will depend on your program and goals.

  You may need to plan a program of more than 121 credit hours if you wish to complete specific professional or studio training, are preparing for graduate study in certain disciplines, or have multidisciplinary goals.

  If the combination of course work for the GE, prerequisites, and your major program totals fewer than 121 hours, you have many options for the remaining hours, called electives. With your elective hours, you could pursue a second major, a minor, or a combination degree program; select a set of courses on a specific topic; engage in an undergraduate research experience; do internships; and/or study abroad. You are urged to meet with your Arts and Sciences advisor to work out a plan that best fits your needs and interests. In no case shall the number of hours required for graduation be fewer than 121.

  Within the minimum 121 credit hours, you must have:

  - A minimum of 111 hours of Arts and Sciences or Arts and Sciences-approved courses. (Arts and Sciences-approved courses include non-Arts and Sciences courses taken toward completion of an officially declared minor program.)

    You may count a maximum of 10 hours of non-Arts and Sciences and non-Arts and Sciences-approved course work toward your degree. Of the 10 hours, no more than 4 may be from physical activities courses taught in Kinesiology: Sport, Fitness, and Health Program (KNSFHP); physical activities courses include all 1000-level KNSFHP courses except for 1022, 1101, 1202, 1211, and 1201B. A maximum of 2 hours of non-Arts and Sciences-approved course work is allowed toward the 10 hours of non-Arts and Sciences and non-Arts and Sciences-approved course work; however, the combination of KNSFHP, technical, and other non-Arts and Sciences credit hours may not exceed 10.

  - A minimum of 39 hours of Arts and Sciences or Arts and Sciences-approved upper-division course work.

    Upper-division courses are defined as all Arts and Sciences courses at the 3000-level or above, Philosophy 2500, all courses taught by departments in mathematical and physical sciences (Astronomy and Astrophysics, Chemistry and Biochemistry, Computer Science and Engineering, Earth Sciences, Mathematics, Physics, and Statistics) at the 2000-level and above (except for courses numbered 2194), and foreign language courses taught in the language at the 2000-level. Your 39 upper-division hours may come from hours earned for the GE, the major, the minor (if applicable), and electives.

  - A minimum of 30 credit hours earned through regular course enrollment at Ohio State.

  Regular course enrollment at Ohio State and in the College of Arts and Sciences is in effect at the time of reenrollment.

  In addition, you must have:

  - A cumulative grade point average (GPA) of at least 2.0 for all work attempted at Ohio State. Please note that the BME degree requires at least a 2.75 cumulative GPA.

  - A cumulative GPA of at least 2.0 in your major. Please note that some Professional Programs in the Arts require higher than a 2.0 cumulative major GPA. See “Requirements for the Major” below for details.

  - An application for the degree on file in the Arts and Sciences Graduation Services office in 141 Denney Hall.
The curricular requirements are divided into twelve categories. In fulfilling the GE, you may petition (in advance) with your advisor to substitute upper-division courses that meet the spirit of the GE for courses on the GE. If you have transferred to Ohio State from another institution, you can often fulfill part of the GE with approximately equivalent courses already taken. Your transfer course work will be reviewed in Arts and Sciences Advising, and courses that meet the spirit of the GE will be applied to the GE.

You must earn at least a D in a course for it to fulfill a GE requirement. Courses taken on a pass/non-pass or satisfactory/unsatisfactory basis cannot be used to fulfill GE requirements.

### Exclusivity of GE, Major, and Minor Courses

With the exceptions noted below, courses may not be counted on both the GE and the major. A maximum of 6 semester hours on the major may also count on the GE. If the minor consists of more than 12 semester hours, some overlap with the major may be permitted. Consult your advisor.

Some GE courses are listed in more than one category; with the exceptions noted below, however, GE courses may not be used to fulfill more than one GE requirement.

### Courses Used to Fulfill More than One Requirement

Courses used to fulfill the Diversity Experiences category may also count in another GE category or on the major. The course used to fulfill the Data Analysis requirement may also count on the major if the course is at the 2000-level or above and approved by your advisor.

### Group Studies and Individual Studies

Group studies (XX94) courses and individual studies (XX93) courses are not acceptable for fulfilling GE requirements except when a specific experimental course has been approved by the Arts and Sciences Curriculum Committee. If a course has been approved, it will be listed on this curriculum sheet.

### GE Requirements

#### Symbol

- Social Diversity in the United States course that also counts in another GE category
- Natural Science course that also has a laboratory component (lab)
- Global Studies course that also counts in another GE category

#### Honors Courses

In order to enroll in an honors course, you must be an honors student or have instructor permission. Check the course catalogue (course bulletin) at buckeyelink.osu.edu for a full listing of honors courses. (Honors courses are listed only if there is no equivalent, non-honors course available, or in the Natural Sciences, if the honors version has a lab and the non-honors version does not have a lab. Honors courses are marked with an "H" after the course number.)

#### Writing, 6 hours

The goal of courses in this category is to develop skills in written communication and expression, reading, critical thinking, oral expression, and visual expression.

- Women's, Gender and Sexuality Studies 2367.01
- All Other Majors/Specializations

Quantitative and Logical Skills, 6 – 8 hours

The goal of courses in this category is to develop skills in quantitative literacy and logical reasoning, including the ability to identify valid arguments, use mathematical models, and draw conclusions and critically evaluate results based on data.

Basic Computational Skills
Achieve a standardized test score as specified by the State of Ohio (see note below), or attain Math Placement Level R or higher; or complete Mathematics 1060* or 1075. Mathematics 1060 and 1075 are remedial and do not count toward the 121 hour minimum requirement for the Professional Programs in the Arts.

Note: if you earned an ACT Mathematics Subscore of 22 or higher, an SAT Mathematics score of 520 or higher; a score of 108EA (Elementary Algebra) or 69 CLM (College Level Math) on the College Board's Accuplacer tests; or an Algebra Scale Score of 52 on the ACT's Compass math placement test, and the test was taken within two years of your enrollment, then by State of Ohio law you are not required to take remedial math (courses numbered 1075 and below) regardless of your score on the Mathematics Skills Assessment. However, you are strongly encouraged to take the math course you tested into, especially if you plan to continue taking a sequence of math courses.

*The Mathematics 1060 is a terminal math course designed to fulfill the Quantitative and Logical Skills. Basic Computational Skills category of the GE. Students may follow up with Mathematics 1116 to satisfy the Mathematical and Logical Analysis category of the GE.
