Department: Chemistry and Biochemistry, with partial appointment in Chemical and Biomolecular Engineering
Position: Inorganic or Organic Chemist in the general area of Chemical Catalysis
Rank: Associate or Full Professor

Description:
The Department of Chemistry and Biochemistry in the College of Arts and Sciences at The Ohio State University seeks applications for a tenured faculty position at either the Associate or Full Professor level, commencing within a mutually agreeable timeframe. This position is partially funded by Ohio State’s Discovery Themes Initiative, a significant faculty hiring investment in key thematic areas in which the university can build on its culture of academic collaboration to make a global impact. The successful candidate will be engaged in the Sustainable and Resilient Economy (SRE) program [https://discovery.osu.edu/SRE] with a highly collaborative interdisciplinary community of scholars from Engineering, Environmental Sciences, Health Sciences, Economics and Business. Candidates with an established research program in the field of chemical catalysis that is relevant to the general field of sustainable chemistry and with potential application in synthesis or polymer chemistry are strongly encouraged to apply. Successful applicants will be expected to lead or participate in collaborative teams and interdisciplinary research with the Department of Chemical and Biomolecular Engineering, and the broader community of scholars.

Qualifications:
A Ph.D. in inorganic or organic chemistry or related fields is required. Successful candidates will have demonstrated a strong record of publication and intellectual leadership in their research field. Appointment is contingent on the university’s verification of credentials and other information required by law and/or university policies, including but not limited to a criminal background check.

About Columbus:
The Ohio State University campus is located in Columbus, the capital city of Ohio. Columbus is the center of a rapidly growing and diverse metropolitan area with a population of over 1.5 million. The area offers a wide range of affordable housing, many cultural and recreational opportunities, excellent schools, and a strong economy based on government as well as service, transportation and technology industries (see [http://liveworkplaycolumbus.com]). Columbus has consistently been rated as one of the Top U.S. cities for quality of life. Additional information about the Columbus area is available at [http://www.columbus.org].

Application Instructions:
Apply online at Academic Jobs Online at: [https://academicjobsonline.org/ajo/jobs/6320]. Complete applications include a curriculum vitae (with publications list), a description of research accomplishments and plans for future research, a description of teaching interests, and a summary of recent research funding. Applications will be accepted until the position is filled, however those received by October 15, 2015 will receive priority consideration.

The Ohio State University is committed to establishing a culturally and intellectually diverse environment, encouraging all members of our learning community to reach their full potential. We are responsive to dual-career families and strongly promote work-life balance to support our community members through a suite of institutionalized policies. We are an NSF Advance Institution and a member of the Ohio/Western Pennsylvania/West Virginia Higher Education Recruitment Consortium (HERC).

The Ohio State University is an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability status, or protected veteran status.
