The annual entrance review process for undergraduate Pre-Design students

The Department of Design allows a very limited number of Pre-Design students to go through its freshman foundation course sequence on an annual basis. This sequence includes required courses during both Autumn and Spring semesters, as listed below.

An annual entrance review process occurs at the end of each Spring semester, where students submit project outcomes from the below courses, along with other materials specified by the Department.

As a result of a process of Design faculty review, the following number of students will be offered acceptance to the Department's undergraduate major programs:

- 16-18 new major students in Industrial Design.
- 16-18 new major students in Interior Design.
- 16-18 new major students in Visual Communication Design.

Those students not accepted to one of the above major programs via the entrance review process will have completed this version of the Design Minor, and will be able to pursue another major in the University.
