The objectives of a minor in Entomology are to provide insight into the role of insects in human affairs and in the environment. Students majoring in fields associated with food production will be interested in Entomology because of the critical role insects play as direct competitors with humans and animals. Students in CFAES should consider a minor in entomology, especially those interested in animal sciences, pre-veterinary medicine, veterinary public health, plant pathology, sustainable plant systems and agriscience education.

The Entomology minor consists of a minimum of 12 credit hours chosen from the following list.

**Required:**
ENTMLGY 3000 (3)
