

COLLEGE OF ARTS AND SCIENCES
ADVISING AND ACADEMIC SERVICES

THE OHIO STATE UNIVERSITY

**Professional Programs in the Arts
Degree Requirements**

Spring Quarter 2012

The following degree requirements apply if you began your career as a regularly enrolled college student at Ohio State in or prior to summer quarter 2008.

Note: if four or more years have elapsed between any two successive quarters of enrollment at Ohio State, you must fulfill the requirements for the degree in effect at the time of reenrollment.

The following degree requirements are effective spring quarter 2012. Check the web site ascadvising.osu.edu/gec for updated information. Consult your advisor before making enrollment decisions.

Goal

Ohio State's **General Education Curriculum (GEC)** is an integral part of an Arts and Sciences education. General education, as embodied in Arts and Sciences, provides the development of knowledge, perception, attitudes, and skills necessary to understand society's traditions and past, its accomplishments and aspirations, its relation and responsibility to the natural world, its diversity and plurality, and its problems and needs. The **goal** is for you to attain a sense of self within society that invites a continuing desire and ability to learn and work with others for future realization of the human potential. Specific goals aimed toward the broader goal of the GEC are listed below under the seven categories of the curriculum.

The College of Arts and Sciences

The College of Arts and Sciences consists of 39 departments and schools offering majors in the arts and humanities, natural and mathematical sciences, and social and behavioral sciences.

Your Responsibility as a Student

You are responsible for knowing the published policies governing the curriculum you are pursuing, as well as the regulations and procedures of the college and the university. The Professional Programs in the Arts curriculum sheet should be used in conjunction with the degree planning information and college policies, published online, at ascadvising.osu.edu.

Prerequisites

You are responsible for fulfilling all prerequisites to courses in which you enroll. Failure to satisfactorily complete prerequisites may delay graduation.

General College Requirements

■ You must earn a minimum of 191 credit hours to earn an Arts and Sciences degree. In addition to the General Education Curriculum, you will complete general college and major requirements and elective course work to reach a minimum of 191 credit hours.

Remedial courses (e.g., English 109.01 and 109.02; Mathematics 50 and 75), and credit hours earned in repeated course work, do not count toward the 191 hour minimum requirement for the Professional Programs in the Arts. Note that you can take both "versions" of cross-listed courses (e.g., Comparative Studies/Philosophy 170); however, since the two versions are in fact the same course, only one may count toward your minimum degree hours.

The number of hours required to complete a Professional Programs in the Arts degree with a given major will depend on your program and goals.

You may need to plan programs of more than 191 credit hours if you wish to complete specific professional or studio training, are preparing for graduate study in certain disciplines, or have multidisciplinary goals.

If the combination of course work for the GEC, prerequisites, and your major program does not add up to 191 hours, you have many options for the remaining hours, called electives. With your elective hours, you could pursue a second major, a minor, or a combination degree program; select a set of courses on a specific topic; engage in an undergraduate research experience; do internships; or study abroad. You are urged to meet with an Arts and Sciences advisor to work out a plan that best fits your needs and interests. In no case shall the number of hours required for graduation be fewer than 191.

Within the minimum 191 credit hours, you must have:

■ A minimum of 176 hours of Arts and Sciences or Arts and Sciences-approved courses.

You may count a maximum of 15 hours of non-Arts and Sciences and non-Arts and Sciences-approved course work toward your degree. Of the 15 hours, no more than six may be from physical activities courses taught in Education: Physical Activity and Educational Services (EDU PAES); physical activities courses include all 100 level EDU PAES courses except for 102, 103, 122, 137, and 138. A maximum of 12 hours of technical credit may be counted toward the 15 hours of non-Arts and Sciences and non-Arts and Sciences-approved course work; however, the combination of EDU PAES, technical, and other non-Arts and Sciences credit hours may not exceed 15.

■ A minimum of 60 hours of Arts and Sciences or Arts and Sciences-approved upper-division course work. Upper-division courses are defined as all Arts and Sciences courses at the 300 level or above, Philosophy 250, all courses taught by departments in mathematical and physical sciences at the 200 level and above (except for courses numbered 294), and foreign language courses taught in the language at the 200 level. Your 60 upper-division hours may come from hours earned for the GEC, the major, and electives.

■ A minimum of 45 credit hours earned through regular course enrollment at Ohio State, and regular course enrollment in Arts and Sciences in your last quarter.

In addition, you must have:

■ A cumulative grade point average (GPA) of at least 2.0 for all work attempted at Ohio State.

■ A cumulative GPA of at least 2.0 in your major.

■ An application for the degree on file in the Arts and Sciences Graduation Services Office in 141 Denney Hall.

General Education Curriculum (GEC) Requirements

The curricular requirements are divided into seven categories for the Professional Programs in the Arts degrees. In fulfilling the GEC, you may petition (in advance) in the Arts and Sciences Advising Office to substitute upper-division courses that meet the spirit of the GEC for courses on the GEC. If you have transferred to Ohio State from another institution, you can often fulfill part of the GEC with approximately equivalent courses already taken. Your transfer course work will be reviewed in Arts and Sciences Advising, and courses that meet the spirit of the GEC will be applied to the GEC.

You must earn at least a D in a course for it to fulfill a GEC requirement. Courses taken on a pass/non-pass basis cannot be used to fulfill GEC requirements.

Exclusivity of GEC, Major, and Minor Courses

With the exceptions noted below, courses may not be counted on both the GEC and the major. Courses taken to fulfill GEC requirements may count on the minor unless specifically disallowed by an individual minor program. Courses may not be counted on both the major and the minor.

Some GEC courses are listed in more than one category; with the exceptions noted below, however, GEC courses may not be used to fulfill more than one GEC requirement.

Courses Used to Fulfill More than One Requirement

Courses used to fulfill the Diversity Experiences category may also count in another GEC category or on the major. The course used to fulfill the Data Analysis requirement may also count on the major if the course is at the 200 level or above and approved by the major advisor.

Group Studies and Individual Studies

Group studies (X94 courses) and individual studies (X93 courses) are not acceptable for fulfilling GEC requirements except when a specific experimental course has been approved by the Arts and Sciences Committee on Curriculum and Instruction. If a course has been approved, it will be listed on this curriculum sheet.

Requirements for the Major

Your major program must consist of at least 40 hours of credit in courses numbered 200 or above as prescribed by your major advisor. Please note that many major programs require considerably more than 40 hours of credit. Your major may consist either of courses offered in only one department or of courses from allied departments; however, except for interdisciplinary majors, at least 20 of the 40 hours must be in courses offered by the department of the major. Your major may or may not include course work that fulfills the GEC third writing requirement. This requirement is not in effect for all majors; please consult with your major advisor.

You must earn at least a C- in a course in order for it to be listed on your major. However, you must receive a 2.0 cumulative GPA for all major course work. Please note: some majors require more than a 2.0 GPA for all major course work. If you earn a D+, D, or an E in a course that is required for your major, the course cannot be counted toward the major. Your major advisor will decide if the course should be repeated or if another course should be substituted for it. Courses taken on a pass/non-pass basis cannot be used on the major.

Your major advisor must approve all courses comprising your major. If you change from one major or curriculum to another, consult with an Arts and Sciences advisor. Such changes may result in modifying requirements to such an extent that your date of graduation might be delayed.

If you have transferred from another institution, you must have on the major program at least 20 credit hours earned at The Ohio State University. Your major advisor, the chairperson of the department concerned, and the appropriate assistant dean must approve any request for a variation in this policy.

Arts Majors

Note: Bachelor of Arts majors in art, history of art, music, and theatre must use the Arts and Sciences Bachelor of Arts and Bachelor of Arts in Journalism curriculum sheet, not this Professional Programs in the Arts sheet.

The information contained in the Professional Programs in the Arts curriculum sheet applies to students following one of the majors and degree programs listed below. Admission to these areas is selective. In addition, each Arts and Sciences division offers the interdisciplinary honors contract and the personalized study program majors.

6. Diversity Experiences, 0 hours

A. Social Diversity in the United States

The goal of courses in this category is to foster an understanding of the pluralistic nature of institutions, society, and culture in the United States.

You should overlap social diversity courses with another GEC category or your major. If you do not overlap social diversity courses with another GEC category or your major, the social diversity requirement must still be met.

Select one course. Courses designated with a dot (•) also count in another GEC category.

B. International Issues

The goal of courses in this category is to help you become an educated, productive, and principled citizen of your nation and the world.

You should overlap international issues courses with another GEC category or your major. If you do not overlap international issues courses with another GEC category or your major, the international issues requirement must still be met.

Select two international issues courses. One must be a non-western or global course [designated with a star (★)]. The other course may be another non-western or global course, or a western (non-U.S.) course [designated with a diamond (♦)].
