The certificate program provides a comprehensive education on health communication, including a focus on health message design, media campaign planning, and interpersonal communication in healthcare settings. Courses in the certificate program will equip students with theoretical and practical knowledge that will enable them to communicate effectively to promote health and provide high quality healthcare.

The Health Communication Certificate Program requires the completion of at least four courses for 12 credits, including two foundational courses. To declare the certificate program, students should meet with their assigned academic advisor or any advisor in the School of Communication. Any variation from the program described below needs the approval of the Director of Undergraduate Studies. Students may request approval of a certificate variation by filing a petition through the School of Communication Advising Office.
