The Integrative Approaches to Health and Wellness Minor is designed to study the nature, meaning, and possibilities of integrating Complementary and Alternative Medicine (CAM) into traditional western approaches to health care. An undergraduate who obtains the minor in Integrative Approaches to Health and Wellness will have an increased ability to navigate in the health care, wellness, or corporate arenas which are increasingly considering preventative, proactive approaches to health. These undergraduates will have delved into various paradigms of healing, as well as the western biomedical model, gaining a breadth of exposure to various approaches to health.

The Integrative Health and Wellness Minor consists of 12 credit hours of course work:
